GCP40/60/100 Coffee Percolator

General Coffee Percolators are offered in 3 convenient sizes and are an ideal solution for high volume brewing needs. All units feature a sight glass, an easy to use illuminating On/Off Switch, as well as an indicator light that signals when the brewing is complete. The indicator light's dual function also informs you when the unit has sediment build up, allowing you to know exactly when a more thorough cleaning is required.
