GEM160
60 Quart Mixer

FEATURE LIST

Model:	GEM160
Description:	60 Quart Mixer
Voltage:	220/50-60/1, 220/50-60/3
Rated Power:	2200 Watts
Bowl Capacity:	60 qt
Speed:	65-374 RPM
Weight:	739 lb / 336 kg
Dimensions:	32" W x 44" D x 54" H 810mm W x 966mm D x1372mm H

Designed for heavy duty applications where a planetary mixing action is required. These all-purpose mixers use a planetary mixing action that consistently blends, mixes and aerates all ingredients with satisfactory results. The heat treated carbon steel gears deliver energy at three pre-selected fixed speeds. Each mixer comes standard with a stainless steel bowl, flat beater, spiral dough

hook, and wire whip. The stainless steel wire front bowl guard opens easily for adding ingredients. The bowl guard magnetic lock prevents the mixer from running if guard is opened or the bowl is lowered. The switches are moisture resistant. All units come with an overload switch which protects the motor.

Specifications subject to change without notice.
